

## Programming C++

### Making Scrambled Eggs

1. Go to your Refrigerator and grab as many eggs as you like
2. Grab seasonings you would like to put in your eggs
3. Lay your eggs and seasonings on your counter
4. Grab a bowl and a whisk or fork to beat the eggs
5. Pick up one of your eggs and on the edge of your bowl lightly tap the egg to crack the egg
6. With the egg now cracked use your two opposing thumbs to pry the egg open and let the yolk fall into the bowl
7. Continue the previous step until eggs are fully cracked and into bowl
8. Now that your cracked eggs are in the bowl take your seasonings and add the amount to your preference.
9. Go to where you keep your pots & pans
10. Grab a pan of you choosing
11. Put your pan onto your stove and put your stove on low - med heat
12. Grab your choice of oil and add a fair amount onto the pan
13. Now add your beaten eggs onto the pan and move them around until they have seemed to be cooked in solid form and not gooey
